## Department of Texas

### Chapter 22, Fort Worth, Texas

### ROA Chapter 22, July 2010 Update

#### President’s Message:

The Fourth of July is almost here, I hope you have plans for a joyful celebration of our nation’s independence. It’s why we all serve and have served.

This month our speaker will be Jack L. Drain, Lt. Col, USAF (Ret). Lt. Col Drain has 268 combat missions over Korea and Vietnam. He will discuss his latest book, *Life on a Short Fuse*. This is an accounting of some Jack’s adventures and narrow escapes. In particular, his pursuit of the truth about the faulty Honeywell fuses that took the lives of so many of his fellow pilots. Lt. Col. Drain will have copies of his book available for sale following his talk.

Planning for the Texas Department Convention to be held here in Fort Worth in November is moving into the next phase. The date is set for 12-13 November. The basic structure of the Convention is taking shape. It’s time to form committees and become more focused.

Please note that I will be out of town for a few weeks. Therefore, please RSVP to LTC Paul Faidley (see below).
